

Help Information for INWR Website Use (11/6/18)

- The “Home Page” slide show advances automatically but can be worked manually with arrows
- The “REGISTER FOR ALL EVENTS” button takes you to the EVENTS page. The calendar on this page has a “MONTH” view of the INWR Events Calendar. The Calendar Month can be changed using the DATE text box surrounded by “arrows”. To Register - Locate the event and “click” to expand it - look for a “REGISTER” button on the upper-right of the event description and follow it to the registration form. Note if there is NO REGISTER button then, the event is not “open” or no registration is required e.g. “Cars & Coffee”.
- Note that INWR Members receive email for EACH EVENT on the INWR Calendar with Registration information.
- Registration is not required for the Coffee socials
- The calendar is SMART and you can get event information and usually register for an event (just click on the calendar event) using it.
- The calendar contains buttons to control format in the Upper Right Side of the page
- All photos and videos taken by INWR members are available on the MEDIA page and are organized by EVENT dating back to 2006. The individual EVENT pages contain slide shows with “best of” photos.
- The website is responsive to changing platform size from tablets to desktop computers. If you use your phone, then turn it to “landscape, i.e. sideways” orientation
